Please note the technical data of the products!

Article Number: 76124

Safety Instructions:

- Caution: High load capacity of 1000 kg. Avoid overloading to prevent injuries.
- Safety note: The use of the battery spanner is essential to prevent unintentional lifting.
- Note: The battery charger blocks the lifting of the forks when the load is low. Always monitor the safety systems.
- Caution: Improper operation can lead to injury or damage. Users should be trained.
- Safety instructions: Only suitable for use on level ground. Ensure increased stability when lifting heavy loads.
