

Product Safety Information

Industrial cable bridges

Manufacturer/Responsible Person: Ewald Hildebrandt GmbH & Co. KG, Feldstraße 30, 44867 Bochum, Deutschland

E-Mail: kontakt@eha.de

Please note the technical data of the products!

Article Numbers: 825118, 825117, 825116

Safety Instructions:

- Can be driven over with heavy loads. Beware of excessive weights, do not drive over the cable bridge if damaged and only drive over it with a suitable vehicle in accordance with the permissible load.
- Highly resistant to extreme temperature fluctuations. Avoid use outside the specifications and observe protection against extreme temperature fluctuations to prevent material failure.
- Avoid contact with aggressive chemicals that could damage the PVC materials.
- For outdoor use, ensure that the cable bridge is suitable for the desired application.
- Before installation/application, ensure that the substrates are stable.
- Ensure sufficient distance from heat sources.
- Ensure that the cables are laid in a non-slip manner to avoid the risk of tripping.
- Check the cables for damage before use to avoid electrical risks.
