Article Numbers: 98995, 98994, 98993, 98992, 98991

Safety Instructions:

- Suitable for use in industry.
- Ensure that the lid is correctly locked to prevent leakage.
- Observe correct handling of the lever lock to avoid injuries.
- Do not fill the product above the maximum authorised level and observe the maximum filling height to avoid overflow.
- Do not use the product for hazardous or toxic liquids unless it is expressly approved for this purpose; do not use for the storage of hazardous substances without appropriate labelling.
- Take care during storage and protect from mechanical damage as well as direct sunlight and heat sources.
- The product is heavy; precautions must be taken when lifting and the risk of injury due to incorrect lifting or transporting must be observed.
- Not suitable for food as the specific use is not indicated.
- Wear protective clothing when handling to avoid injury and keep the product out of the reach of children to avoid the risk of choking.
- For the storage of chemicals, check suitability before use.
- Check the tightness of the contents regularly and use suitable sealing material to prevent leaks.
- Always store the drum upright and secure it to prevent it from falling over; ensure safe storage to prevent it from tipping over or falling.
- Take care when using near hot surfaces or chemicals that can attack the material.
- Seal the clamping ring regularly for damage to ensure a secure seal.
