

# Product Safety Information

## Stainless steel serving trolley

**Manufacturer/Responsible Person:** fetra Fechtel Transportgeräte GmbH, Industriestraße 17-21, 33829 Borgholzhausen, Deutschland

**E-Mail:** info@fetra.de

Please note the technical data of the products!

**Article Numbers:** 96715, 96714, 96713

### Safety Instructions:

- Check the stability of the trolley after assembly.
- Avoid overloading: Maximum 80 kg per shelf, 150 kg in total.
- Secure the castors to prevent uncontrolled rolling. Check the functionality regularly and only use castors that are in perfect condition.
- Use the trolley on stable and horizontal levels. Make sure that all wheels are working properly.
- Keep the trolley away from overheated surfaces.
- Do not exceed the maximum load capacity.
- Replace the parts if they are worn or damaged to avoid safety risks.
- Ensure that the trolley is not overloaded (max. total load capacity: 150 kg). Pay attention to protection against tipping over, in particular no high load on one side.
- Avoid jerky movements when pushing to prevent tipping over.
- When assembling, pay attention to the easy-to-understand safety information and instructions and keep your fingers away from moving parts during assembly and use.
