Safety Instructions:

- The container is not suitable for storing food.
- Avoid using the container at temperatures outside the specified temperature range of -20°C to +100°C.
- The maximum recommended load when stacking containers should not be exceeded in order to prevent tipping and to avoid injuries caused by improper use.
- Keep the container dry and clean to prevent the formation of mould or other undesirable substances.
- The container is not intended for use outdoors or in extreme weather conditions.
- Protect from falling and tipping over when fully loaded.
