Safety Instructions:

- Only use the ladder on stable, firm and level surfaces to ensure stability.
- Before use, check the stability, condition, functionality and any damage to the ladder.
- Only use the ladder for its intended purpose and in accordance with the operating instructions in order to avoid injury and damage.
- Children and untrained persons should not use the ladder. Keep the ladder out of the reach of children.
- Observe the maximum load capacity of the ladder and do not overload it.
- Do not use the ladder in windy, wet, unfavourable weather conditions or poor lighting.
- Observe safety precautions such as wearing suitable footwear and positioning the ladder at an optimum angle.
- Keep both hands free when climbing up or down and avoid carrying loads that could affect your balance.
- Keep the ladder clear of obstacles and do not use it near power lines.
- Tighten all bolts and screws before use and avoid shaking or pushing the ladder for extra stability.
- Call in a second person for safety, especially when working at heights.
