Safety Instructions:

- Before use, ensure that the cable snake is stable and properly laid to avoid tripping hazards.
- Use suitable tools for installation work to avoid damage and injury.
- Only use the cable snake for cable routing and organisation.
- Observe the instructions and safety information supplied; if in doubt, contact the manufacturer.
- Only use in a stable and safe position to avoid falls.
- Do not overload the wiring harness to avoid damage.
- The manufacturer must provide clearly understandable installation instructions.
- Take care when using with hot or sharp objects to avoid the risk of fire or injury.
- Take care when using in passageways to avoid tripping hazards.
- Suitable for use with ergonomic furniture, such as height-adjustable tables.
- Hold up to 30 cables; ensure that the cables are routed correctly to avoid overheating or damage.
- Use the furniture attachment to securely attach the cable snake to avoid injury.
- Regular inspection for damage is recommended to avoid the risk of short circuits.
