Safety Instructions:

- Ensure stability when setting up, either by using the stand frame and mounting material supplied or by mounting permanently to prevent tipping over.
- The product is heavy (approx. 27 kg) and should be handled by at least two people when lifting and transporting it.
- Take care when handling the lock to avoid injury and theft.
- Only use the recommended quantities of quartz sand in accordance with the instructions to avoid the risk of suffocation due to improper filling and overheating.
- Regular maintenance and inspection for rust and damage are important to maintain the integrity of the product.
- Do not use the ashtray as a seat or for climbing.
- Secure the ashtray in strong winds.
- Avoid using the appliance in the vicinity of flammable materials to reduce the risk of fire.
- The ash tray should be emptied regularly to prevent overheating.
- Keep the ashtray away from naked flames.
- Choking hazard due to improper handling of small parts.
- Risk of injury from sharp edges and improper transport or installation.
- Risk of burns from hot ash, especially if disposed of improperly.
- Product is not suitable for children and should be placed out of their reach.
