Article Number: 34153

Safety Instructions:

- When transporting drums and small containers, secure the grating shelf level to prevent it from slipping.
- Regularly check the screw connections to the outer wall of the hazardous materials depot to ensure the stability of the grating shelf level.
- Wear suitable protective equipment when handling hazardous substances that are transported on the grating shelf level.
- Observe the special regulations for the storage and transport of hazardous substances in accordance with the applicable safety guidelines.
