Safety Instructions:

- Sturdy steel construction - risk of injury from tipping over if used incorrectly.
- Use twin castors with brakes to prevent the serving trolley from rolling away. Secure the brakes when the serving trolley is not being moved.
- Observe the required installation instructions to ensure safe use.
- The serving trolley should be used on a stable and level surface.
- Avoid overloading the floors beyond the specified weight capacities.
- Keep the serving trolley away from children to prevent injuries from tipping over.
