Safety Instructions:

- This cable bridge is not suitable for use with tracked vehicles.
- The cable bridge may only be used on a level surface and must lie flat.
- Make sure that the cable bridge does not overheat, as it is only temperature-resistant up to 50°C.
- Avoid using the cable bridge in extreme weather conditions that could affect safety.
- The use of cables or hoses that exceed the load limit of 25 tonnes can lead to damage.
