Article Numbers: 24299, 24198

Safety Instructions:

- Risk of suffocation due to improper handling or storage, especially with heavy goods.
- Risk of injury due to the product weight of 320 kg, especially during transport or improper handling.
- Regularly check the safety mechanisms to ensure the effectiveness of the double-bit high security lock and the emergency locking system.
- Correct floor and wall anchoring in accordance with the manufacturer's instructions to ensure stability and prevent tipping.
- Optimum use only in the intended area of application (document storage) to avoid safety risks.
- Avoid using electrical appliances near the cabinet during operation.
- Observe the maximum storage capacity to prevent overloading.
- Observe the recommended ambient temperature and humidity to prevent damage.
- In the event of fire, do not open the cupboard by force, but use the key.
