Article Numbers: 24303, 24227

Safety Instructions:

- Heavy parts of the enclosure require suitable handling equipment for transport and installation.
- The materials included must be used for anchoring to the wall or floor to prevent the risk of tipping.
- Although fire-retardant, the cabinet is not completely fireproof and can be damaged at extreme temperatures.
- Due to the 510 kg weight, the cabinet must be placed on a stable, level surface.
- To ensure the safety of the documents, always keep the cabinet closed from fire when not in use.
- Maintain the safety lock regularly and only allow authorised persons to use it.
- Anchor the cabinet properly to prevent it from tipping over in the event of vibrations or earthquakes.
- Do not store any flammable materials in the vicinity to avoid water damage in the event of a fire.
- The cabinet must not be kept accessible to children.
- Carry out regular inspections to ensure the functionality of all safety functions.
