Safety Instructions:

- Use the vice in a stable and fixed position to avoid injury from slipping.
- Make sure that no body parts or items of clothing get between the workpiece to be clamped and the jaws of the vice.
- Follow the instructions for handling and installation to ensure safe working.
- Keep the work surface and vice clean to avoid tripping hazards and accidents.
- Avoid excessive forces when clamping the workpiece to prevent damage to the vice or workpiece.
- Ensure that the parallel vice is securely clamped to prevent slipping and injury.
- Use of protective gloves and suitable protective equipment recommended to avoid injury during handling.
- Do not load beyond the maximum clamping force to prevent damage to the product and injury.
- Enclose the instructions for safe use and all important safety instructions in a language that is easy to understand.
- Caution: Risk of injury due to improper use of the vice.
- Before use, ensure that the vice is correctly mounted and clamped.
- Do not use beyond the maximum span.
- Keep the vice away from children during use.
- Check that the product is securely fastened before use.
- Only use the vice for its intended purpose.
- Secure loose parts before operating the vice.
- Keep the work area free of distractions and potential hazards.
