Safety Instructions:

- Make sure that the workbench is stable and on a level surface to prevent it from tipping or falling over.
- The height adjustment should only be carried out by one person and with care to avoid injury.
- Only use the workbench for its intended purpose. Observe the maximum load capacity of the worktop.
- Make sure that there are no loose objects or tools on the workbench before adjusting the height.
- Use personal protective equipment, such as gloves and safety goggles, when working with the workbench to avoid injury.
