Safety Instructions:

- Objects that are connected to others and affect the product can pose a safety risk. Be careful when installing the product.
- Consumers should receive clear instructions on how to use and install the product safely.
- The product packaging should contain information on the load capacity: maximum 1.2 tonnes. The workbench must not be loaded beyond this.
- The workbench is not a toy and is not designed for use by children. Keep children away from the workbench.
- Ensure that the product is protected from improper use to prevent physical injury.
- Choking hazard due to possible loose parts.
- Serious injuries caused by improper use of the workbench and sharp edges or corners must be avoided.
- Check the stability and load-bearing capacity of the workbench before use. It should be placed on a level surface to prevent tipping or wobbling.
- Ensure that the drawers and hinged doors are handled and used correctly to avoid injury.
- Wear suitable protective equipment, especially when using tools, to avoid injury. Use at your own risk.
- Sharp edges and ergonomic aspects must be taken into account during use in order to avoid injuries.
