Safety Instructions:

- Risk of suffocation from small parts if the drawers are used incorrectly.
- Risk of injury due to improper handling; secure workbench with heavy loads.
- Maximum load capacity is 1.2 tonnes; must not be exceeded.
- Height-adjustable parts can cause crushing hazards if handled incorrectly; ensure that positions are correctly locked.
- Workbench is designed for use by adults; children should be supervised.
- Store heavy objects safely to avoid injury.
- To avoid falls, do not use the workbench as a ladder or climbing aid.
- The workbench must be placed on a stable and level surface to prevent it from tipping over.
- Construction must prevent tipping or collapse; carry out regular stability tests.
- Include suitable warnings for the safe use of the workbench.
- Maximum load capacity of 1.2 tonnes must be clearly indicated to avoid overloading.
- Workbench should only be operated by adults; not suitable for children under 14 years of age.
- Keep the work surface free of unnecessary objects to avoid tripping hazards.
- Avoid contact with excessive moisture to prevent damage to the worktop.
- Workbench is subject to the general safety requirements in accordance with Regulation (EU) 2023/988 on general product safety.
