Safety Instructions:

- Observe the product safety instructions.
- No sharp edges or corners.
- Place on a stable surface to prevent tipping over.
- Note the load capacity of up to 1.2 tonnes.
- Use suitable personal protective equipment.
- Carefully read and follow the installation and operating instructions.
- Ensure that the product is stable and secured against tipping over.
- Do not use on the workbench if it is damaged or unstable.
- Do not overload drawers to ensure functionality and safety.
- Ensure safe use in accordance with the manufacturer's instructions.
- Do not use the workbench near water sources to avoid the risk of electric shock.
- Due to its weight (up to 1.2 tonnes), the workbench must be placed on a solid surface for safe and stable use.
- When opening the hinged doors, make sure that no objects fall into the work area and cause injury.
- The worktop should be protected from sudden changes in temperature and moisture to prevent damage.
- Only use the workbench for its intended purpose to ensure the safety and durability of the product.
- Choking hazard due to small parts if used incorrectly.
- Risk of serious injury due to improper handling or overloading of the worktop.
- Observe the safety instructions for the correct use and assembly of the workbench.
