Safety Instructions:

- Ensure that the workbench is used safely to avoid injury.
- The maximum load capacity of the workbench is 1.2 tonnes. Do not exceed this load capacity to avoid overloading.
- Keep tools and materials away from the edge of the worktop to prevent them from falling.
- Keep small parts out of the reach of children to avoid the risk of choking.
- Follow the instructions for safe assembly and use of the workbench.
- Ensure that the workbench is stable and securely positioned to prevent it from tipping or falling over.
- Check all components regularly for wear or damage.
- Follow the operating instructions carefully to avoid the risk of injury from improper use.
- Only use the workbench within the scope of the specified regulations (e.g. do not use it as a ladder or seat).
- Place the product on a stable and level surface before assembly.
- Watch out for sharp edges and corners on the workbench.
- Ensure that the drawers and compartments are accessible to avoid overloading.
- Use protective clothing to avoid injury.
- Ensure that the substructure is mounted stably to guarantee safety-conscious use.
- Check edges and surfaces regularly for irregularities to avoid injury.
