

Product Safety Information

Space-saving tanks from 60 to 500 l, oval-shaped

Please note the technical data of the products!

Article Numbers: 150131, 150130, 150129, 150128, 150127, 150126

Safety Instructions:

- Before use, check the outlet nozzle and the lid for damage and leaks to prevent leaks.
- The product should not be used or stored outdoors permanently to avoid UV damage and material degradation.
- Only store liquid substances that are compatible with the material of the tank. When using acids, alkalis or substances containing mineral oil, observe the compatibility and take protective measures.
- Always support the entire base of the tank on a level surface to prevent it from tipping over. The maximum load capacity of the handles is 30 kg, avoid overloading.
- Do not handle the product with sharp objects or chemicals that could attack the material.
- Keep children away from the product to avoid accidents.
- Do not stack if the product application does not allow it. Ensure that the tank support height is correctly maintained (160 mm).
- The outlet nozzle is not suitable for high pressures and should only be used for the intended liquids.
- In the event of leaks or damage, contact the manufacturer immediately.
