

Product Safety Information

Space saving tanks from 1100 to 4000 l

Please note the technical data of the products!

Article Numbers: 150119, 150118, 150117, 150116, 150115, 150110

Safety Instructions:

- Only use for the storage of products with a specific weight of up to 1.1 to avoid overloading.
- Do not use permanently outdoors to avoid material wear and weather damage.
- Take care when handling aggressive or corrosive liquids and use suitable personal protective equipment to avoid injury.
- Tanks should be stored with their entire base resting on stable, level surfaces to ensure stability and prevent them from tipping over.
- Ensure that all screw connections, fittings and connections are properly installed and regularly checked for leaks to prevent leaks.
- Ensure that the tank is kept away from direct sunlight and extreme temperatures.
- Only use suitable and approved fittings for the tank connections and ensure that sockets and fittings are only suitable for specified liquids.
- Before using the tank, read the instructions and safety information carefully and enclose them in the local language.
- The tank is unsuitable for use by children, keep children away.
