Safety Instructions:

- The product is not suitable for children under 3 years of age as it may contain small parts.
- Use of the product requires proper wall mounting; improper mounting may result in injury.
- Avoid overloading or overheating the product to prevent structural damage and fire hazard.
- Install the product in dry indoor areas and not in damp environments to avoid electricity risks.
- Use protective gloves and goggles when handling the product; pay particular attention to sharp edges.
- The electrical installation and all connections must be carried out by qualified personnel in accordance with the applicable safety standards in order to avoid the risk of electric shock.
- Ensure that the product is properly earthed to avoid electrical hazards.
- Before installation, ensure that the wall has the necessary load-bearing capacity to avoid the risk of falling.
- Carry out regular maintenance and inspection of the cables, connections and fuses to ensure their functionality and safety.
- All instructions for installation and use of the product must be followed exactly in order to minimise safety risks.
- Ensure that access to electrical components and cables is always safe before installation and maintenance.
- Do not install the product near water sources to avoid electricity risks.
- The product should be mounted in a stable structure to prevent it from falling.
- Ensure that the technical documentation is accessible and that all product standards are complied with.
