### Safety Instructions:

- Caution: Risk of injury due to improper use. Take care when using the stapler to avoid injury.
- Keep out of the reach of children. The appliance is not suitable for children under 3 years of age; it contains small parts and there is a choking hazard.
- Carefully read and observe the safety information and instructions for use. Use only in accordance with the intended instructions and for the intended purpose.
- The appliance is not suitable for persons with reduced physical, sensory or mental capabilities unless they have been given supervision or training concerning its safe use.
- Follow the disposal instructions to protect the environment.
- Only use the recommended 24/6 or 26/6 staples to ensure secure stapling.
- Keep the device away from water and moisture.
- Keep a safe distance from the eyes to avoid injury.
- Caution during use: Finger protection is required to avoid injury.
- Do not use the appliance on hard surfaces to avoid damage.
- Do not load the stapler with too many staples at the same time. Observe a maximum of 30 sheets.
- Do not aim at people or animals while the stapler is in use.
- Check the mechanics of the appliance regularly to ensure proper function.
- Avoid direct contact with the clamps during loading and unloading and keep your fingers away from the opening to avoid injury.
- The appliance is not suitable for unusually thick materials.
- To avoid injury, do not use the stapler if it is damaged.
- Sharp edges or points can lead to injuries.
- Use only under adult supervision.
