

Product Safety Information

Gas cylinder depots

Please note the technical data of the products!

Article Numbers: 76525, 76524

Safety Instructions:

- The depot must be set up in a well-ventilated area and away from sources of ignition to minimise the risk of gas accumulation.
- Prevent unauthorised persons from accessing the gas cylinder depot; use the cylinder lock integrated as standard.
- During assembly, ensure that all parts are stable and properly fastened.
- Check the depot regularly for physical damage to ensure safe storage.
- Only store gas cylinders up to 11 kg in the depot.
- In the event of a safety incident or accident, contact the relevant authorities or emergency numbers immediately.
