

Product Safety Information

Lever roller for roller plates up to 3000 kg

Manufacturer/Responsible Person: Gabriel Transportsysteme GmbH, Frielinghausen 26, 59889 Eslohe, Deutschland

E-Mail: info@rollcart.de

Please note the technical data of the products!

Article Numbers: 91830, 91829, 91828

Safety Instructions:

- Wear suitable protective equipment, especially when handling heavy loads (e.g. gloves, safety shoes).
- Before using the lever scooter, check it for damage and that the brakes are working properly.
- Only use the lever roller on a firm, level and stable surface to prevent movement and accidents.
- Ensure that the load is properly secured and evenly distributed.
- Do not exceed the maximum load capacity: 3000 kg for the polyurethane wheels, 2000 kg for the elastic rubber wheels.
- Note maximum load capacity: 1500 kg for wheel ø 250 mm.
- Risk of overloading: Do not exceed the maximum weight (1000 kg).
- Keep children away from use as the product is not suitable for them. Suitable for adult use.
- Before transporting heavy loads, ensure that the lever roller is positioned correctly.
- Ensure that the product complies with the general safety requirements.
- Instructions for safe use and maintenance must be provided.
- Caution: High load capacity. Improper use may result in injury.
- Risk of collision and risk of injury due to the castor plate tipping over or falling if handled incorrectly.
