Article Numbers: 72046, 72045, 72044, 72043, 72040

Safety Instructions:

- Not suitable for children under 3 years - choking hazard due to small parts.
- Use for the intended application - If in doubt, consult the manufacturer.
- Suitable for use in the workshop - take safety precautions.
- Improper use may result in injury from sharp cutting edges or objects. Avoid direct contact with sharp edges or pointed objects.
- Store the gloves in a dry place to prolong their service life.
- Check for damage before use. Do not use the gloves if they are damaged.
- Not suitable for contact with food.
- Check hands for injuries before use.
- Excessive use may cause skin irritation. If skin irritation occurs, discontinue use immediately and consult a doctor.
- Do not use in the vicinity of naked flames or very high temperatures. These protective gloves are not suitable for contact with high-temperature materials.
- In the event of an accident or injury, inform the relevant authorities immediately.
- Not suitable for handling hazardous chemicals. Clean hands thoroughly to avoid skin contact with chemicals or other harmful substances.
- If the gloves are damaged, replace them immediately so as not to jeopardise protection. Check the gloves regularly for tears or damage.
- If gloves are heavily contaminated, remove them immediately and clean hands thoroughly.
- Do not use these protective gloves in areas where they are not suitable for the intended risks.
- Do not clean or wash in order not to impair the protective properties.
