Safety Instructions:

- Not suitable for use by children as there is a risk of suffocation from the film.
- Avoid direct contact with food, as the film is not designed for this.
- Important: The film can tear or slip if used incorrectly.
- Please ensure that the film is kept free of dust and dirt to guarantee its function.
- Do not use at temperatures above 60 degrees Celsius or in the vicinity of naked flames or extreme temperatures.
- Read the instructions carefully before use.
- Caution in case of improper handling: Avoid immediate abortion of skin contact with the product and risk of injury.
- Dispose of in an environmentally conscious manner: Please dispose of film residues in accordance with local regulations for plastic waste.
- Store in a dry and cool place: Store the product in a cool, dry place, away from direct sunlight.
- Observe safety precautions: When using machines for processing, the relevant safety regulations must be observed.
- Do not apply the film to damaged or unsafe surfaces.
- Risk of suffocation from pieces of film that are not disposed of correctly.
- The film can be slippery, so take care when working to avoid falls.
