Please note the technical data of the products!

Article Numbers: 98149, 98148

Safety Instructions:

- Avoid using the pallet in humid environments as this may affect its durability.
- Do not overload the pallet in order not to exceed the safe load capacity of 1250 kg.
- Make sure that the pallet is standing on a level surface to prevent it from tipping or falling over.
- When using forklift trucks or other lifting equipment, care should be taken to ensure that the entry height and width are suitable for the dimensions of the pallet.
- Ensure safe storage to prevent accidents caused by falling goods.
- Ensure protection against injuries when lifting heavy loads.
- Ensure that the pallets are not stacked unstably to prevent them from tipping over.
- Beware of possible transport damage when using in air transport.
- Only use the pallets in accordance with the stated technical specifications.
- Inform consumers about proper disposal and recycling.
