Safety Instructions:

- Only use the workbench on a stable, level surface to avoid tipping or wobbling.
- Maximum load capacity of the workbench: Do not exceed 1.2 tonnes.
- Do not allow anyone to stand in the area of open hinged doors and drawers to avoid injury.
- Follow the operating instructions exactly during installation and use to minimise safety risks.
- Keep away from sources of fire and do not store flammable materials in the vicinity.
- Avoid the risk of suffocation from small parts in drawers and compartments.
- Avoid risk of injury due to improper use and excessive loading of the workbench.
- Provide safety information in an understandable way.
- Only use the workbench for its intended purpose and do not overload it (load capacity 1.2 tonnes).
- Keep children and unauthorised persons away from the workbench.
- Take suitable protective measures when working at the workbench, e.g. wear personal protective equipment (gloves, safety goggles).
- Do not place heavy objects on open hinged doors.
- Regular inspections for damage or signs of wear and tear.
- Lock all drawers and compartments securely to prevent unauthorised opening.
- The workbench must not be used by unauthorised personnel or children without appropriate training.
- Ensure the ratio of suitable and safe tools and machines.
- Regularly check the top edges for damage.
