Safety Instructions:

- Keep the work surface free of dangerous or overturnable objects.
- Use personal protective equipment such as gloves and safety goggles.
- Secure the workbench properly to prevent it from slipping or tipping over.
- Regularly check the stability and mechanical parts of the workbench.
- Keep children away from the workbench to avoid injury.
- Do not overload the workbench (maximum load capacity: 1.2 tonnes).
- Avoid contact with sharp objects on the worktop.
- Place tools and materials securely on the workbench to prevent them from tipping over or falling.
- Keep the workplace clean to avoid tripping hazards.
- Do not overload drawers to prevent them from falling out or jamming.
- Observe the safety instructions for electrical appliances.
- Place heavy objects correctly on the workbench to avoid injury.
- Avoid contact with sharp edges and corners.
- Set up the workbench stably and securely before starting work.
- Only use drawers up to their maximum load capacity to prevent breakages or accidents.
- Mount the workbench on a stable and level surface.
- Close drawers properly to avoid injury.
- Secure the work area to prevent tripping and falling accidents.
- Workbench is not suitable for children, place out of their reach.
