**Article Numbers:** 96076, 96075, 96074

### Safety Instructions:

- Protect electronic components from discharge by using the ESD box profile.
- Mount the box profile correctly on the worktable to ensure stability and safety.
- Only use the product with approved worktables with a width of 1200 mm, 1500 mm or 1800 mm.
- The product is not suitable for environments with high electrical voltages.
- Use only with Treston worktables, do not combine with incompatible appliances.
- The product must be installed and assembled correctly to avoid safety risks.
- The aluminium product has sharp edges, be aware of the possible risk of injury.
- Check the ESD box profile regularly for wear and damage.
- Protect the aluminium profile from mechanical overload to prevent structural damage.
- Ensure that all parts are firmly connected to prevent loosening during operation.
