Article Numbers: 96070, 96069, 96068

Safety Instructions:

- Ensure that the cable tray is stable and properly installed at the workstation to prevent accidents caused by falling and electrostatic discharge.
- To minimise electrical risks, do not use the cable tray in damp or wet environments.
- Regularly check for damage or wear to ensure safety and functionality.
- Lay cables and electrical components in accordance with applicable safety standards to prevent overheating or short circuits.
- Dispose of defective or no longer required cable trays in accordance with local regulations.
- Wires and cables must not be overloaded or damaged in order to avoid short circuits.
- If you are unsure about how to use the product, consult the manufacturer or a specialist.
- Observe the enclosed safety information for safe use and installation.
- To prevent injuries, the cable tray should not be overloaded and all cables should be safely stowed away.
