Safety Instructions:

- Only use the product on stable surfaces to prevent it from tipping over.
- Avoid excessive loading. The maximum load capacity is 50 kg.
- Ensure that the surfaces are protected from moisture to prevent damage to the chipboard.
- The use of sharp objects could damage the surfaces. Be careful when handling.
- The product is intended for use in dry environments and should not be used in damp or wet areas.
- Ensure that the storage conditions do not affect the stability of the product.
- The product is not suitable for use in areas where there is a risk of fire or water.
- Before assembling and using the product, ensure that all parts are complete and undamaged.
- Keep the product out of the reach of children.
- Before use, ensure that the product is correctly assembled and stable.
- Ensure that the workplace is free of obstacles to prevent tripping accidents.
- Check the product regularly for wear and damage.
- In the event of improper use, there may be a risk of objects falling over.
- Ensure that products are supplied with clear instructions for safe use.
- Regularly check the load-bearing capacity in accordance with the manufacturer's instructions.
- The product may tip over if used incorrectly; observe the instructions for use.
- There is a risk of injury due to improper use or overloading of the shelf.
- Ensure that the shelf is in a stable position to prevent it from tipping over.
