Safety Instructions:

- Ensure that the mobile desk is placed on a level and stable surface to prevent it from tipping over.
- When using the mobile desk, do not exceed the maximum load capacity of 100 kg to avoid structural damage.
- Make sure that the shelves are properly secured to prevent objects from falling.
- Do not use harsh or chemical cleaning agents that could damage the powder coating.
- Take care when using electrical appliances near water sources.
- Sharp edges or corners of the mobile desk should be rounded or well padded.
- There is a risk of slipping when used on smooth surfaces; ensure that the castors are working properly.
- Small parts of the fireplace and cabinet concept that are accessible to children pose a potential choking hazard.
- Include the instructions for use and safety information in all relevant languages to prevent misuse.
