Safety Instructions:

- Do not load heavier than 30 kg to avoid structural damage.
- Store packaging separately from small parts to prevent the risk of suffocation.
- Please note that the box may lose its stability under extreme conditions (e.g. wet conditions).
- Keep the transport box out of the reach of children to avoid the risk of choking on small parts.
- Avoid excessive weight in the box to prevent damage or possible injury.
- Use additional locking devices if the box is filled with heavy contents to prevent unintentional opening.
- Take care not to store the box near fire or heated surfaces, as materials can have flammable properties.
