Safety Instructions:

- Make sure that the table is placed on a stable, level surface to prevent it from wobbling or tipping over.
- Prevent heavy or sharp objects from damaging the table top.
- Keep flammable or hot objects away to prevent damage to the table surface.
- Use secure cable routing to avoid tripping hazards.
- Avoid overloading the table (maximum 75 kg) to prevent stability problems.
- Regularly check the floor and height adjustment screws to ensure safety.
- Use the cable management system correctly to ensure organisation and safety.
- Do not use aggressive cleaning agents to avoid damaging the surfaces.
- Ensure that all assembly instructions are followed correctly and that loose parts are tightened securely.
- Keep the work area free of obstacles to prevent injuries.
- To ensure stability, only adjust the height in the range from 677 to 817 mm in accordance with the instructions.
- Children may only use the table under supervision, as it is not designed as a toy.
- Remove all packaging materials before use to avoid the risk of suffocation.
- Only use the table indoors and protect it from water.
- Carry out regular maintenance and inspection of the table's safety systems.
- Adjust the table height accordingly for ergonomic use.
- Use electrical components safely and in accordance with the instructions to avoid risks.
