Safety Instructions:

- The height of the desk can be adjusted between 677 mm and 817 mm. Please ensure that the adjustment corresponds to your individual needs to avoid health risks due to incorrect sitting posture.
- Ensure that the desk is stable to prevent it from tipping or falling over.
- The cable outlets should be checked for blockages before use to ensure safe cable routing.
- Regularly check the stability and fastenings of the table, especially if changes are made by adjusting the height.
- Avoid risk of injury from sharp edges or corners.
- Lay cables safely to minimise the risk of tripping.
- Warning of choking hazard due to loose parts or cables, especially in the vicinity of children.
- When using the cable management system, ensure that no cables cause crushing or tripping hazards.
- Take care when adjusting the height of the table to avoid injury.
- Regular maintenance and checking of the levelling screws for correct function.
- The product should be used in accordance with the enclosed instructions and safety information.
- Keep the table away from water and damp environments to prevent damage.
- Clean the table surface regularly to ensure a long service life.
- Height adjustment should only be carried out by adults.
- Avoid placing heavy objects on the tabletop to prevent it from tipping over.
