Safety Instructions:

- Ensure that the system angle plate is mounted correctly and stably to prevent it from tipping over and the risk of falling.
- Avoid excessive load and pressure on the system angle plate to prevent damage.
- Keep the system angle plate and the base free of obstacles for safe use and to prevent tripping hazards.
- Keep out of reach of children and do not allow children to open the product packaging to prevent injuries and the risk of suffocation.
- Read and follow the installation instructions carefully to ensure correct installation and stability.
- The system angle plate must be mounted on a stable and level surface to avoid the risk of it tipping over.
- Take protective measures against sharp edges during installation to prevent cuts.
- Regularly check the stability of the top and tables as well as the connecting elements to prevent instability.
- The height of the foot should be adjusted correctly to ensure an ergonomic sitting position.
- Avoid contact with water and sharp objects to prevent damage to the surface and structure.
- Ensure that installation is only carried out by qualified personnel in order to fulfil all safety requirements.
- Use suitable, non-abrasive cleaning agents for cleaning.
- Avoid heavy impacts or placing heavy loads on the system angle plate to prevent damage.
