E-Mail: service@moravia.de

Please note the technical data of the products!

Article Numbers: 131190, 131189, 131188, 131182

Safety Instructions:

- Assembly must be carried out with suitable tools and by qualified personnel, accompanied by suitable protective measures to avoid injury.
- Protect your eyes when cutting or assembling. The use of personal protective equipment (helmet, gloves, safety shoes) is recommended.
- Keep the installation area free of obstacles and hazards. Take care when mounting to avoid hazards from falling parts.
- Ensure that the planks are securely fastened and that installation is carried out in accordance with the instructions to prevent accidents.
- If the planks are damaged, they must not be used and must be inspected regularly for wear or damage.
- To minimise the risk of falling and injury, do not use the planks as a storage surface or to support other loads.
- Ensure that the steel elements are fastened correctly to prevent injuries from detachment.
- Do not work under suspended loads and ensure stability on uneven or slippery surfaces.
- Take suitable protective measures against collisions with forklifts during installation.
- Regular inspections and maintenance are required to ensure the safety of the planks.
