Safety Instructions:

- Ensure that the cabinet is stable and securely positioned at the location and is standing on a stable, level surface to avoid the risk of tipping.
- Avoid overloading the shelves. Observe the recommended maximum load to prevent structural damage.
- Operate sliding doors carefully: Do not open or close with excessive force. Ensure that they do not jam, block or trap fingers.
- Keep children away from the sliding doors and only use the cabinet as intended to avoid injury.
- Read and follow the manufacturer's installation and safety instructions carefully to avoid damage or injury.
- Regularly check the condition of the cabinet for damage or wear and tear and clean the surfaces regularly.
- Make sure that no objects are blocking the sliding doors or that sharp objects are in contact with them.
- The cabinet should not be installed near heat sources or damp locations to avoid overheating and damage to the material.
- Heavy objects should not be placed in the upper compartments to prevent them from tipping over.
- Keep small parts such as screws out of the reach of children to avoid the risk of suffocation.
- In the event of damage, discontinue use immediately and contact the manufacturer.
