Article Numbers: 45109, 45108, 45107, 106166

Safety Instructions:

- The shelf should be placed on a stable and level surface to prevent it from tipping or falling over.
- Do not overload drawers and do not apply excessive force when using them to prevent them from falling out or tipping over and to minimise the risk of snapping.
- Suitable for children over 12 years; small parts should be kept out of the reach of small children due to choking hazard.
- Follow the instructions carefully during installation to avoid safety risks and prevent the risk of injury.
- Regularly check the condition and fastenings of the shelving to ensure safety and prevent damage.
- Protect the shelf from falling over or jamming and do not allow children to play near it.
- Only use the shelf for its intended purpose.
- Avoid extreme temperatures, direct sunlight and moisture to prevent mould growth and damage.
- Safety warnings and instructions must be included in understandable language.
- Report any complaints about possible safety problems to the manufacturer.
