### Safety Instructions:

- Make sure that sharp edges and corners are safely finished to prevent injuries.
- The height-adjustable mechanisms must be used in accordance with the instructions to prevent accidents.
- The table top can tip over if used improperly; therefore, the glides or castors should be installed and used correctly.
- Avoid using near water or wet surfaces to reduce the risk of electrical damage.
- Assembly must be carried out carefully in accordance with the enclosed instructions to ensure the stability of the table.
