Safety Instructions:

- Caution: Risk of toppling if incorrectly installed or overloaded. Ensure that the shelf is mounted stably and securely on the wall and use the safety anchors supplied.
- Use only in dry indoor areas in accordance with the instructions for use. Avoid contact with water to prevent damage to the chipboard.
- Ensure that the shelf is standing on a stable and level surface to prevent it from tipping over. The plinth feet should be checked regularly to ensure that they are adjustable.
- Keep children away from sharp edges and ensure that they do not play with or climb on the shelf.
- Keep this product away from heat sources such as radiators or direct sunlight to avoid damage.
- Do not overload drawers to avoid damaging the rails or causing them to tip over. Do not put your fingers between the drawers or in the telescopic pull-out mechanism.
- Avoid overloading the shelves. Make sure that heavy objects are placed securely in the drawers or shelves to ensure stability.
- Avoid storing heavy objects on the top shelves and do not exceed the recommended weight capacity to ensure the stability of the shelf.
- Use suitable cleaning agents to avoid damaging the melamine resin coating. Please note that damp wiping should not damage this coating.
- Clearly label all hazard warnings on the product.
- Roller shutters must be fitted correctly and must not be blocked. Use a cabinet with three-point locking to ensure stability.
- The cabinet is heavy - pay attention to your safety during transport.
