### Safety Instructions:

- Ensure that all electrical components are installed and maintained safely and in accordance with the instructions. Observe the relevant safety regulations to avoid electrical risks.
- The product must not be loaded above the specified maximum weight. Avoid placing excessive weight on the work surface to prevent tipping or breakage.
- Avoid contact with water or damp environments to prevent electrical accidents and damage to the surface.
- Do not exceed the maximum working height of 820 mm to avoid tipping over.
- Only use the desk on a stable, level surface to ensure stability and safety.
- Ensure that there is sufficient space around the desk and keep the work area free of obstacles to avoid tripping hazards and injuries.
- Ensure that the desk is working properly, especially the height adjustment mechanism, before using it. When adjusting the working height, ensure that fingers and hands cannot become trapped.
- Do not keep dangerous objects on the desk and keep moving parts and adjustable mechanisms away from children to avoid injury.
- The desk is not intended for children, sharp edges and small parts can pose a risk of injury, avoid small parts becoming a source of danger for children.
- Only use the desk in accordance with the intended applications and instructions.
- Regularly check the screws and connections to maintain safety. Also check the floor levelling screws regularly to ensure stability.
