Article Numbers: 44980, 44979, 44978

Safety Instructions:

- The worktop must be mounted on a stable base to ensure stability.
- When adjusting the height, the top edge must not protrude beyond the permitted height; only adjust the height in accordance with the instructions to ensure safe use.
- Heavy objects should be evenly distributed on the worktop to prevent the risk of tipping.
- Do not use sharp objects directly on the surface to avoid scratches.
- Regular checks for loose screws and connections are necessary to ensure the stability of the worktop.
- Suitable tools should be used for assembly to avoid injury.
- Stabilising feet must be correctly adjusted to avoid the risk of tipping.
- Keep the surface materials dry to prevent damage or wear.
- If used improperly, the worktop could become unstable, so people should not lean on it.
