Safety Instructions:

- Risk of suffocation due to small parts if handled or assembled incorrectly.
- The cabinet must be placed on a stable and level surface to prevent it from tipping over.
- During assembly, the parts supplied must be used in accordance with the instructions to ensure safety and stability.
- The product is intended exclusively for the storage of office supplies and not for hazardous substances.
- Avoid excessive weight on the shelves so as not to break or overload shelves; observe the maximum weight limits.
- Children should be kept away from the cupboard and it should not be used as a toy.
- When opening the doors, make sure that there are no objects or people in the way to avoid injury.
- The cabinet must not be placed near heat sources or in direct sunlight to prevent deformation.
- Assembly should be carried out by at least two people to avoid injury.
- Sharp edges on the handles and cabinet elements should be treated to prevent injuries.
- The cabinet should be checked regularly for loose parts or damage.
- Contact with water or damp environments should be avoided to prevent damage to the wood-based materials.
- Storage of heavy objects on lower shelves for stability.
- The product is not suitable for children under 3 years of age due to the risk of improper use.
- After installation, stability should be checked to ensure safety.
- Secure the cupboard to the wall to prevent it from tipping over.
- Only use suitable cleaning agents and follow the care instructions.
