Safety Instructions:

- Observe safety measures during assembly to avoid injuries.
- Ensure stability to prevent tipping over.
- Protect the cabinet from direct sunlight and moisture to prevent material damage.
- Store small parts and accessories in accordance with the safety regulations to avoid injury.
- Caution: Not suitable for children under 3 years of age as it contains small parts.
- Follow the assembly instructions for a safe and stable construction.
- Do not overload the cabinet to avoid structural damage and risks.
- Do not allow children access to the cupboard, as there is a risk of injury from falling over or becoming trapped.
- Secure storage of heavy items on the lower shelves to minimise the risk of tipping over.
- Ensure good ventilation to prevent damage caused by moisture or mould growth.
