Safety Instructions:

- The shelves may only be loaded with a maximum of 40 kg per shelf to prevent overloading and thus collapse.
- Make sure to assemble the shelves securely according to the instructions to ensure stability.
- The product should not be installed in the immediate vicinity of water sources or in damp rooms in order to avoid damage caused by moisture.
- When installing the shelves, care should be taken to ensure that they are secured against tipping over, especially in households with small children.
