Article Numbers: 285435, 285433, 285218, 285214, 285158, 285157, 231810, 231802

Safety Instructions:

- Maximum loads: metal shelves 50 kg, glass shelves 20 kg. Do not load the shelves above these limits to avoid the risk of collapse.
- Keep the cabinet on a stable, level surface to ensure stability.
- Avoid placing heavy objects in the glass insert to prevent the risk of breakage.
- Close doors properly to prevent unintentional opening and possible injury.
- Only use the cabinet for its intended purpose to avoid damage and injury.
- Attach warnings about the safe use of the cabinet.
- Secure the cabinet against access by small children to prevent injuries.
- Follow the installation instructions carefully to ensure safe and correct installation.
- Check all hinges, locks and safety-relevant parts regularly to ensure that they are in good working order.
- Only use the product indoors.
- Take care when handling glass doors to avoid injury from broken glass.
- Do not overload the product; observe the maximum load capacity.
- Ensure that the cabinet is stable and correctly positioned after assembly.
- Use safety glass as intended and avoid slamming the glass doors.
- Keep heavy objects in the lower compartments for secure stability.
- Avoid using the edges or corners of the cupboard as a seat.
- Read the operating instructions carefully before installation and use.
- Check the cabinet regularly for stability and damage.
