Safety Instructions:

- Attention: Cabinets with high load capacity - observe a maximum of 50 kg per shelf to avoid structural damage.
- Warning: Watch out for sharp edges and corners; take care during assembly and handling.
- Note: For safe use of the lock cut-out - contact the manufacturer in the event of damage.
- Only use the cabinet for its intended purpose (office/private use).
- Pay attention to the stability of the shelves, especially with a maximum load of 50 kg per shelf.
- The manufacturer's instructions must be observed during installation to ensure safety and functionality.
- The cabinet is not suitable for storing highly flammable or hazardous materials.
- The product is heavy - use technical aids or help if necessary during transport and assembly.
- The cabinet must be kept locked to prevent unauthorised access.
- Place the cabinet on a stable and level surface to prevent it from tipping over.
- Brush furniture can have sharp edges - be careful when handling.
- The product should be installed and operated in accordance with the instructions provided to ensure safety.
- The cabinet is not suitable as play equipment for children - place it out of their reach.
- Avoid overloading the shelves by more than 50 kg to prevent tipping and structural damage.
- The lock should be used correctly to prevent unauthorised access.
- Take care not to place the cabinet near heat sources or damp locations to avoid damage.
